

*Camp Easter Seal has proudly served the Province of Saskatchewan for many years. This year, as we celebrate Camp's 65th anniversary, we reflect on how grateful we are to be supported by such strong, devoted communities. Because of YOU, Camp Easter Seal has welcomed tens of thousands of campers since it began in 1954. With your help, we will continue to provide the magic of camp for children and adults who experience disability for many years to come.*

Kieran is described as an outgoing, avid sports fan who loves hockey, volleyball, soccer and flag football. In May 2014, he experienced a croup-like cough and a hoarse voice. After visiting his doctor and spending a few days at home, he was feeling better and was ready to return to school.

On a school day that began like every other with a busy household getting organized and getting out the door, our family began what we expected would be a normal day. Kieran, known as a bit of a class clown, was enjoying his day at school when he suddenly started having trouble breathing. His teacher rushed him to the office where he experienced respiratory arrest followed by cardiac arrest. His teacher performed life-saving CPR on Kieran, while the principal called 911.

Kieran suffered a severe anoxic brain injury, and his life was forever changed.

*Disability may not impact your family now, but it could at any time. Your financial contributions to Easter Seals™ Saskatchewan allow us to put programs and resources into place that individuals experiencing disability can access.*

Throughout the last five years Kieran faced challenges with mobility, speech and vision. Our family was told that there were hurdles that he would never overcome, but his determination and incredible support system has been the driving force behind achieving so many goals he was told were unachievable. Even though he still faces many challenges in life, his strength has amazed those who have witnessed his persistence.
